FEATURES AND BENEFITS

UPPER

1. Upper is made with 2-layers of mesh and strategically placed TPU overlays, so it's flexible yet supportive. It uses fewer layers of material for lightweight comfort.
2. Flywire technology on the lateral forefoot integrates with the laces to deliver dynamic lockdown. Its strong cables loosen and tighten with the natural motion of the foot.
3. Asymmetrical U-throat design allows the shoe to move with the foot. It creates more surface area on the lateral side for better containment and stability when cutting from side to side.
4. Partial bootie made of mesh enhances breathability and provides a comfortable fit.
5. Eyestays are reinforced with TPU material.

MIDSOLE

6. Lightweight PU drop-in midsole insert provides lightweight cushioning that sits lower internally for better stability.
7. Low-profile, injected Phylon midsole wraps up on the heel and lateral forefoot for lockdown and lateral stability.

OUTSOLE

8. Rubber outsole provides durability on a variety of surfaces.
9. Hexagonal pattern provides excellent traction for multidirectional movement.

THE ICON CONTINUES WITH A ONE-TO-ONE FIT.

The iconic Men's Nike Air Zoom Pegasus 34 Running Shoe continues with an engineered upper, Zoom Air units and Cushlon foam to deliver responsive cushioning. Dynamic Flywire cables help secure a one-to-one fit so you can go the extra mile in comfort.

-Dynamic Fit technology delivers a one-to-one fit.
-Engineered mesh upper offers lightweight ventilation.
-Zoom Air units provide responsive cushioning.
-Partial mesh bootie wraps the foot for a plush, comfortable fit. Notches at the tongue provide easy on and off.
-Fitsole sockliner conforms to the shape of your foot to provide comfort and underfoot support.
-Premium Cushlon ST foam provides soft and springy yet responsive cushioning with a supportive feel.
-Rubber crash rail on the lateral outsole acts as a cushioning device at contact for a soft, smooth transition. The rubber is segmented to enhance flexibility.
-Waffle pistons in the rubber outsole help absorb impact and provide multi-surface traction. Lugs have been turned sideways from the previous version to enhance cushioning.
